TYPHOON NAVIGATOR MOUSE

Introduction

Typhoon Navigator Mouse uses the latest Wireless technology for cableless use on the desk. No more clumsy cable tangling with your desk stationeries. Glide the mouse through most surfaces with ease using the high resolution optical sensor. No more mechanical ball and rollers jamming the cursor.
The Typhoon Navigator Mouse transmits radio frequencies to the Receiver which translate with precise cursor movement on screen. Features 5 buttons with 2 unique buttons for forward and backwards page view in the web browser. Scroll wheel for viewing long pages easily and alert low battery level with its built-in light. Designed with ribs along the circumference for friction grip.

Article Number: 40814
